Before we proceed \_\_\_\_\_

Paste your family photograph.

We live in a family. Parents and children make a family. A family live together in a house. It is their home. Given below is Aditi's family.

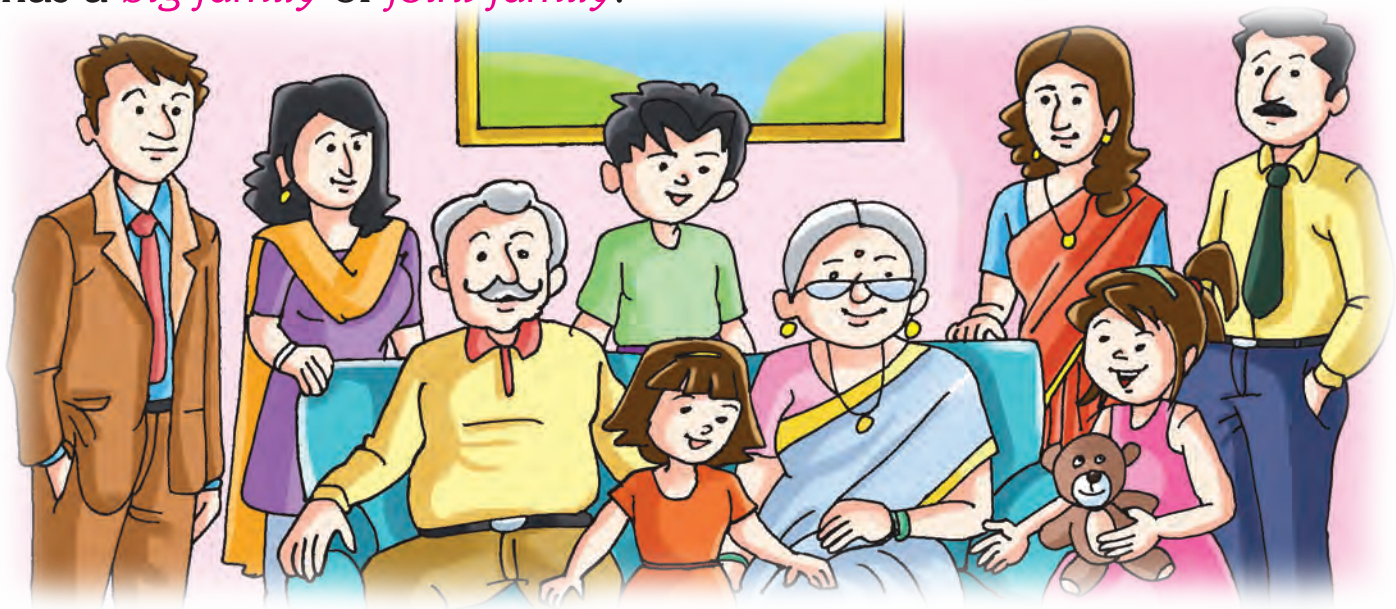

Aditi, her father, mother and an elder brother makes her family. Hers is a *small family* or *nuclear family*.

Teacher's Tip

Ask each child about their family members. Ask how many of them have joint and nuclear families.

This is Anurag's family. He lives with his parents, grandparents, uncles and aunts. He has many cousins living in the same house. He has a *big family* or *joint family*.

All the members of a family have a common surname. Sharma, Khan, Bhatia, Bhatnagar, Rai and D'Silva, etc. are some common Indian surnames.

What is your surname ? .....

This is Shalini.

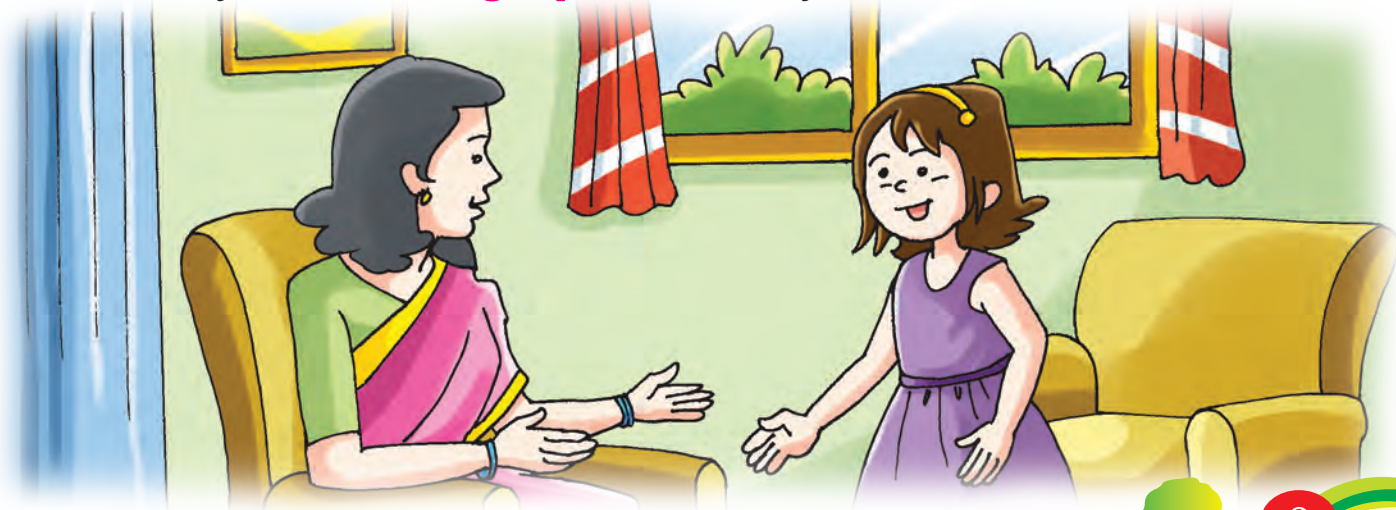

She lives with her mother.

She and her mother make a very small family.

Such family is called *single-parent* family.

### FACTUM

*Some animals live with their families. For example, lions, fish, and elephants.*

# PROJECT/ACTIVITY

## A. Read this poem in the class. Also colour the picture.

This is the father good and kind.  
This is the mother with gentle mind.  
This is the brother grown to tall.  
This is the sister always with a doll.  
This is the baby still to grow.  
This is the family, standing in a row.

## B. Colour this slogan with the help of crayons.

I LOVE MY  
FAMILY
