Before we proceed

Write two things that your mother does for your family.

1.
2.

She is Bhanu.
She is a girl of six years.

This is her father.
He *helps* Bhanu with her studies.

This is her mother.
She *looks after* Bhanu well.

Her parents *play* with her.

Teacher's Tip

Discuss the household chores done by family members. Ask the children how much they help in various tasks at home.

Her parents cook food for the family.

Her mother says that Bhanu is old enough to do some of the things herself.

Bhanu polishes her shoes, packs her bag and gets ready for school on her own.

Members of a family love and help each other. They share the work in the house.

Who does these things for you ?

Who wakes you up in the morning ?

Who helps you take a bath ?

Who sends you off to school ?

Who plays with you ?

Who helps you with your studies ?

Who tells you stories at bedtime ?

I now know ...

- ◆ We share the work in our family.
- ◆ Parents do many things for the family.
- ◆ We, as children, also help them.

FACTUM

Parents feel happy when we help them.

Think And Answer

A. Tick (✓) the correct option.

- Who looks after us at home ?
a. family b. friends c. neighbours
- We must help our parents to keep the house
a. dirty b. clean c. damaged
