Many families live together in a neighbourhood. They form a community.

Rahul is excited to see two children of his age in the newly shifted family in neighbouring house.

The new neighbours are Mr. and Mrs. Jain and their children are Sam and Nidhi.

Rahul's mother helps Mrs. Jain to set the furniture and other things at different places of the house.

Teacher's Tip

The objective of the lesson is to explain the concepts of neighbourhood to the students with an emphasis on sharing and caring for neighbours.

Sam and Nidhi go to the park with Rahul. Nidhi is in class five and Sam is in class two. "Can we play hide and seek here?" Sam asks.

"Yes. You both can play with me and my other friends" said Rahul. Sam and Nidhi like the neighbourhood.

Mrs. Jain goes shopping in the market. The shopping list is long.

Write the number of the place she needs to go to.

Taking Care of the Neighbourhood

We can make our neighbourhood better by following simple rules.

- ◆ We should help each other.
- ◆ We should keep the neighbourhood clean.
- ◆ We must not do anything that disturbs others.
- ◆ We should try to make our neighbourhood green by growing plants in open areas.
- ◆ We should help others in times of need.

Tick (✓) the right picture.

I now know ...

- ◆ A neighbourhood is a place where families live near one another.
- ◆ People living in the same area make a community.
- ◆ Some places in the neighbourhood provide services to us.
- ◆ All the families of a neighbourhood take care of it.
