LESSON
PART 1

Our Food

Before we proceed

Name these fruits.

.....

.....

.....

.....

Different Kinds of Food

We eat different kinds of food to stay healthy and fit. Food gives us energy to work and play and helps us to grow. Food protects us from diseases.

There are three kinds of food.

Energy-giving food

Body-building food

Protective food

Foods like potato, rice, sugar, bread, biscuits, butter, ghee and milk give us energy to work and play.

Foods like fish, meat, eggs, beans, milk and pulses give us strength and help our body to grow.

Vegetables and fruits protect our body from diseases.

FACTUM

Milk is very important for growing children. It helps to build strong bones.

Teacher's Tip

Write down names of different food items on the blackboard. Let children say what they call these in their mother tongue.

Balanced Diet

We need to include all kinds of food in our diet. This makes a balanced diet. Milk contains all kinds of food. So drink milk everyday.

We must include water in our diet. We drink water when we feel thirsty. It helps us to digest food.

FACTUM

Foods like pizzas, burgers, samosas, sweets, chips and cold drinks taste good but are not good for our health. That is why they are known as junk food.

Cooked and Uncooked Food

Some food items are eaten cooked and some raw. We need to cook cereals, pulses, meat and most vegetables. Cooking makes the food soft, tender and tasty. It is easier to digest cooked food.

Foods like all fruits and some vegetables can be eaten raw.

Needed to be cooked

Eaten raw or cooked

Eaten raw

Salad is an important part of our diet. Name any five things that would like to include in your plate of salad.

1.
2.
3.
4.
5.

Vegetarian and Non-vegetarian Food

We eat variety of food.

Some people eat vegetables, fruits, animal products like milk, cheese, butter and honey. They do not eat eggs, fish or meat. Such food is called *vegetarian food*.

Some people like to eat meat, fish and eggs along with vegetarian food. Such food is called *non-vegetarian food*.

Vegetarian food

Non-vegetarian food

FACTUM

There are some people who do not eat any food that comes from animals. They do not include even milk, paneer and honey in their meals. These people are called *vegans*. They eat food that comes from plants only.

Three Meals in a Day

We usually have three meals in a day. Name the meals in the pictures.

Good Food Habits

We must have good food habits. They make us healthy and good-mannered children.

Tick (✓) the rules that you follow at home.

1. Wash hands before and after meals.
2. Do not spill food and water.
3. Do not waste food. Take only as much as you can finish.
4. Eat slowly. Chew your food well.
5. Do not talk while having your meal.
6. Eat meals at a fixed time.
7. Drink only boiled or filtered water.
8. Share food with everyone at the table.

I now know ...

- ◆ Food gives us energy and helps us in our growth.
- ◆ Food protects us from diseases.
- ◆ According to their food habits, people are called vegetarians or non-vegetarians.
- ◆ We eat breakfast in the morning, lunch in the afternoon and dinner at night.
- ◆ Some food items are cooked and some are eaten raw.
- ◆ Good food habits help us stay healthy.

Think And Answer

A. Tick (✓) the correct option.

1. Which of these foods gives us energy ?

(a) eggs

(b) sugar

(c) fruits

-
